Strap Extenders for Nymi Band

Background

The Nymi Band™ is a wrist-worn device that is designed to fit users with wrist diameters up to 210mm (8.25"), or approximately 99% of the population. For those users who find the Nymi Band too small to be comfortably worn, Nymi recommends the use of a Nymi Strap Extender as shown in the following sections. It has been validated for user comfort and compliance with product requirements. The Strap Extender will accommodate wrists up to 270mm (10.6") in diameter.

Additionally, some environments may forbid users from wearing the Nymi Band around their wrist to comply with safety requirements. In these instances, Nymi recommends using the Strap Extender to secure the band around the forearm or ankle.

Part number: 3400-02

Nymi Strap Extender

Installation Instructions

Slide the narrow end of the Strap Extender through the Nymi Band loop. Make sure the mushroom metal peg on the extender is pointing upwards.

Press metal peg through the hole in the Strap Extender to secure it to the Nymi Band.

Slide the sliding loop on the Nymi Band over the end of the Strap Extender.

Thread the strap through the Strap Extender loop.

Clasp the Strap Extender to the user's wrist. Remember to secure the strap with the sliding strap loop.

Adjust the strap and sliding loop for comfort.
