133.	tokio (MIT)	69
134.	Tokio-timer (MIT)	69
135.	Toml (MIT/ Apache 2.0)	70
136.	Unicode_util_compat (Apache 2.0)	70
137.	Unosquare.Swan.Lite (MIT)	70
138.	URL (MIT)	71
139.	Validator (MIT)	71
140.	Validator_derive (MIT)	71
141.	Visual Studio Code C++ Redistributable:	72
142.	wavelib (BSD-3)	72
143.	Webgrease	73
144.	Websocket (MIT)	73
145.	Whoami (MIT)	73
146.	Winapi (MIT /Apache 2.0)	73

147.	Windows API Code Pack	74
148.	Winreg (MIT)	74
149.	Winlog (MIT)	74
150.	WiX Toolkit (MS-RL)	75
151.	winres (MIT)	76
152.	WS (MIT)	76
153.	XamlAnimatedGif (Apache 2.0)	76
154.	polymcu (BSD-2)	77

Table 1: Revision History

Version	Date	Revision History
01	December 20, 2019	First release of document
02	April 15, 2020	Updated document to include new license information for third-party libraries used in Nymi Enterprise Edition 3.1.0.
03	August 28 2020	Updated document to include new license information for third-party libraries used in Nymi Enterprise Edition 3.2.0.

This document contains Third-party License information.

This product comprises subject matter which was obtained under an open source license, including those listed below.

- MIT
- Apache 2.0
- BSD 2-clause
- BSD 3-clause
- ISC
- MPL
- MS-PL
- CCO - 1.0
- WTFPL

33. [Extended.Wpf.Toolkit \(Ms-PL\)](#)

Microsoft Public License (Ms-PL)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

1. Definitions

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law. A "contribution" is the original software, or any additions or changes to the software. A "contributor" is any person that distributes its contribution under this license. "Licensed patents" are a contributor's patent claims that read directly on its contribution.

2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

3. Conditions and Limitations

(A) No Trademark License- This license does not grant you rights to use any contributors' name, logo, or trademarks.

(B) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(C) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(D) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(E) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees, or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.

86. openSC (LGPL)

The Nymi-provided OpenSC library is based on the open-source OpenSC project (<https://github.com/OpenSC/OpenSC>), with the following changes introduced by Nymi Inc.:

- Support for secure messaging for Personal Identity Verification (PIV) smart cards
- Performance optimization for Nymi Band smart cards

The OpenSC project and the Nymi-introduced modifications are covered under the LGPL license. A copy of the source code for the Nymi-introduced modifications can be obtained by contacting support@nyimi.com.

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.

59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Everyone is permitted to copy and distribute verbatim copies

of this license document, but changing it **is** not allowed.

[This **is** the first released version **of** the Lesser GPL. It also counts **as** the successor **of** the GNU Library Public License, version 2, hence the version **number 2.1.**]

Preamble

The licenses **for** most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software **is** free **for** all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--**of** the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether **this** license or the ordinary General Public License **is** the better strategy to use **in any** particular **case**, based on the explanations below.

When we speak **of** free software, we are referring to freedom **of** use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies **of** free software (and charge **for this** service **if** you wish); that you receive source code or can **get** it **if** you want it; that you can change the software and use pieces **of** it **in new** free programs; and that you are informed that you can **do** these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities **for** you **if** you distribute copies **of** the library or **if** you modify it.

For example, **if** you distribute copies **of** the library, whether gratis or **for** a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can **get** the source code. If you link other code **with** the library, you must provide complete **object** files to the recipients, so that they can relink them **with** the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights **with** a two-step method: (1) we copyright the library, and (2) we offer you **this** license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there **is** no warranty **for** the free library. Also, **if** the library **is** modified by someone **else** and passed on, the recipients should know that what they have **is** not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence **of any** free program. We wish to make sure that a company cannot effectively restrict the users **of** a free program by obtaining a restrictive license **from** a patent holder. Therefore, we insist that **any** patent license obtained **for** a version **of** the library must be consistent **with** the full freedom **of** use specified **in this** license.

Most GNU software, including some libraries, **is** covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and **is** quite different **from** the ordinary General Public License. We use **this** license **for** certain libraries **in** order to permit linking those libraries into non-free programs.

When a program **is** linked **with** a library, whether statically or using a shared library, the combination **of** the two **is** legally speaking a combined work, a derivative **of** the original library. The ordinary General Public License therefore permits such linking only **if** the entire combination fits its criteria **of** freedom. The Lesser General Public License permits more lax criteria **for** linking other code **with** the library.

We call **this** license the "**Lesser**" General Public License because it does Less to protect the user's freedom **than the ordinary General** Public License. It also provides other free software developers Less **of** an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License **for** many libraries. However, the Lesser license provides advantages **in** certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use **of** a certain library, so that it becomes a de-facto standard. To achieve **this**, non-free programs must be allowed to use the library. A more frequent **case is** that a free library does the same job **as** widely used non-free libraries. In **this case**, there **is** little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library **in** non-free programs enables a greater **number of** people to use a large body **of** free software. For example, permission to use the GNU C Library **in** non-free programs enables many more people to use the whole GNU operating system, **as well as** its variant, the GNU/Linux operating system.

Although the Lesser General Public License **is** Less protective **of** the users' freedom, it **does ensure that the user of a program that is** linked **with** the Library has the freedom and the wherewithal to run that program using a modified version **of** the Library.

The precise terms and conditions **for** copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived **from** the library, whereas the latter must be combined **with** the library **in** order to run.

GNU LESSER GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to **any** software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms **of this** Lesser General Public License (also called "**this License**"). Each licensee **is** addressed **as** "you".

A "**library**" means a collection **of** software functions and/or data prepared so **as** to be conveniently linked **with** application programs (which use some **of** those functions and data) to form executables.

The "**Library**", below, refers to **any** such software library or work

which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that **is** to say, a work containing the Library or a portion **of** it, either verbatim or **with** modifications and/or translated straightforwardly into another language. (Hereinafter, translation **is** included without limitation **in** the term "modification".)

"Source code" **for** a work means the preferred form **of** the work **for** making modifications to it. For a library, complete source code means all the source code **for** all modules it contains, plus **any** associated **interface** definition files, plus the scripts used to control compilation and installation **of** the library.

Activities other than copying, distribution and modification are not covered by **this** License; they are outside its scope. The act **of** running a program using the Library **is** not restricted, and output **from** such a program **is** covered only **if** its contents constitute a work based on the Library (independent **of** the use **of** the Library **in** a tool **for** writing it). Whether that **is true** depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies **of** the Library's complete source code **as** you receive it, **in any** medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer **of** warranty; keep intact all the notices that refer to **this** License and to the absence **of any** warranty; and distribute a copy **of this** License along **with** the Library.

You may charge a fee **for** the physical act **of** transferring a copy, and you may at your option offer warranty protection **in** exchange **for** a fee.

2. You may modify your copy or copies **of** the Library or **any** portion **of** it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms **of** Section 1 above, provided that you also meet all **of** these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices

stating that you changed the files and the date **of any** change.

c) You must cause the whole **of** the work to be licensed at no charge to all third parties under the terms **of this** License.

d) If a facility **in** the modified Library refers to a **function** or a table **of** data to be supplied by an application program that uses the facility, other than **as** an argument passed when the facility **is** invoked, then you must make a good faith effort to ensure that, **in** the event an application does not supply such **function** or table, the facility still operates, and performs whatever part **of** its purpose remains meaningful.

(For example, a **function in** a library to compute square roots has a purpose that **is** entirely well-defined independent **of** the application. Therefore, Subsection 2d requires that **any** application-supplied **function** or table used by **this function** must be optional: **if** the application does not supply it, the square root **function** must still compute square roots.)

These requirements apply to the modified work **as** a whole. If identifiable sections **of** that work are not derived **from** the Library, and can be reasonably considered independent and separate works **in** themselves, then **this** License, and its terms, **do** not apply to those sections when you distribute them **as** separate works. But when you distribute the same sections **as** part **of** a whole which **is** a work based on the Library, the distribution **of** the whole must be on the terms **of this** License, whose permissions **for** other licensees extend to the entire whole, and thus to each and every part regardless **of** who wrote it.

Thus, it **is** not the intent **of this** section to claim rights or contest your rights to work written entirely by you; rather, the intent **is** to exercise the right to control the distribution **of** derivative or collective works based on the Library.

In addition, mere aggregation **of** another work not based on the Library **with** the Library (or **with** a work based on the Library) on a volume **of** a storage or distribution medium does not bring the other work under the scope **of this** License.

3. You may opt to apply the terms **of** the ordinary GNU General Public License instead **of this** License to a given copy **of** the Library. To **do this**, you must alter all the notices that refer to **this** License, so that they refer to the ordinary GNU General Public License, version 2, instead **of** to **this** License. (If a newer version than version 2 **of** the ordinary GNU General Public License has appeared, then you can specify that version instead **if** you wish.) Do not make **any** other change **in** these notices.

Once **this** change **is** made **in** a given copy, it **is** irreversible **for** that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made **from** that copy.

This option **is** useful when you wish to copy part **of** the code **of** the Library into a program that **is** not a library.

4. You may copy and distribute the Library (or a portion or derivative **of** it, under Section 2) **in object** code or executable form under the terms **of** Sections 1 and 2 above provided that you accompany it **with** the complete corresponding machine-readable source code, which must be distributed under the terms **of** Sections 1 and 2 above on a medium customarily used **for** software interchange.

If distribution **of object** code **is** made by offering access to copy **from** a designated place, then offering equivalent access to copy the source code **from** the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along **with** the **object** code.

5. A program that contains no derivative **of any** portion **of** the Library, but **is** designed to work **with** the Library by being compiled or linked **with** it, **is** called a "**work that uses the Library**". Such a work, **in** isolation, **is** not a derivative work **of** the Library, and therefore falls outside the scope **of this** License.

However, linking a "**work that uses the Library**" **with** the Library creates an executable that **is** a derivative **of** the Library (because it contains portions **of** the Library), rather than a "**work that uses the library**". **The executable is therefore covered by this License.** Section 6 states terms **for** distribution **of** such executables.

When a "work that uses the Library" uses material **from** a header file that **is** part of the Library, the **object** code **for** the work may be a derivative work **of** the Library even though the source code **is** not. Whether **this is true is** especially significant **if** the work can be linked without the Library, or **if** the work **is** itself a library. The threshold **for this** to be **true is** not precisely defined by law.

If such an **object** file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less **in** length), then the use **of the object** file **is** unrestricted, regardless **of** whether it **is** legally a derivative work. (Executables containing **this object** code plus portions **of the** Library will still fall under Section 6.)

Otherwise, **if** the work **is** a derivative **of** the Library, you may distribute the **object** code **for** the work under the terms **of** Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly **with** the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" **with** the Library to produce a work containing portions **of** the Library, and distribute that work under terms **of** your choice, provided that the terms permit modification **of** the work **for** the customer's own use and reverse engineering **for** debugging such modifications.

You must give prominent notice **with** each copy **of** the work that the Library **is** used **in** it and that the Library and its use are covered by **this** License. You must supply a copy **of this** License. If the work during execution displays copyright notices, you must include the copyright notice **for** the Library among them, **as well as** a reference directing the user to the copy **of this** License. Also, you must **do** one **of** these things:

- a) Accompany the work **with** the complete corresponding machine-readable source code **for** the Library including whatever changes were used **in** the work (which must be distributed under Sections 1 and 2 above); and, **if** the work **is** an executable linked **with** the Library, **with** the complete machine-readable "work that uses the Library", **as object code and/or source code, so that the**

user can modify the Library and then relink to produce a modified executable containing the modified Library. (It **is** understood that the user who changes the contents **of** definitions files **in** the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism **for** linking **with** the Library. A suitable mechanism **is** one that (1) uses at run time a copy **of** the library already present on the user's **computer system**, rather than copying library functions into the executable, and (2) will operate properly **with** a modified version **of** the library, **if** the user installs one, **as long as** the modified version **is interface-compatible with** the version that the work was made **with**.

c) Accompany the work **with** a written offer, valid **for** at least three years, to give the same user the materials specified **in** Subsection 6a, above, **for** a charge no more than the cost **of** performing **this** distribution.

d) If distribution **of** the work **is** made by offering access to copy **from** a designated place, offer equivalent access to copy the above specified materials **from** the same place.

e) Verify that the user has already received a copy **of** these materials or that you have already sent **this** user a copy.

For an executable, the required form **of** the "**work that uses the Library**" **must include any data and utility programs needed for** reproducing the executable **from** it. However, **as** a special exception, the materials to be distributed need not include anything that **is** normally distributed (**in** either source or binary form) **with** the major components (compiler, kernel, and so on) **of** the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that **this** requirement contradicts the license restrictions **of** other proprietary libraries that **do** not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together **in** an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side **in** a single library together **with** other library facilities not covered by **this** License, and distribute such a combined library, provided that the separate distribution **of** the work based on the Library and **of** the other library facilities **is** otherwise permitted, and provided that you **do** these two things:

a) Accompany the combined library **with** a copy **of** the same work based on the Library, uncombined **with any** other library facilities. This must be distributed under the terms **of** the Sections above.

b) Give prominent notice **with** the combined library **of** the fact that part **of it is** a work based on the Library, and explaining where to find the accompanying uncombined form **of** the same work.

8. You may not copy, modify, sublicense, link **with**, or distribute the Library except **as** expressly provided under **this** License. Any attempt otherwise to copy, modify, sublicense, link **with**, or distribute the Library **is void**, and will automatically terminate your rights under **this** License. However, parties who have received copies, or rights, **from** you under **this** License will not have their licenses terminated so long **as** such parties remain **in** full compliance.

9. You are not required to accept **this** License, since you have not signed it. However, nothing **else** grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law **if** you **do** not accept **this** License. Therefore, by modifying or distributing the Library (or **any** work based on the Library), you indicate your acceptance **of this** License to **do** so, and all its terms and conditions **for** copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or **any** work based on the Library), the recipient automatically receives a license **from** the original licensor to copy, distribute, link **with** or modify the Library subject to these terms and conditions. You may not impose **any** further restrictions on the recipients' **exercise of the rights granted herein**. You are not responsible **for** enforcing compliance by third parties **with this** License.

11. If, **as** a consequence **of** a court judgment or allegation **of** patent infringement or **for any** other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions **of this** License, they **do** not excuse you **from** the conditions **of this** License. If you cannot distribute so **as** to satisfy simultaneously your obligations under **this** License and **any** other pertinent obligations, then **as** a consequence you may not distribute the Library at all. For example, **if** a patent license would not permit royalty-free redistribution **of** the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and **this** License would be to refrain entirely **from** distribution **of** the Library.

If **any** portion **of this** section **is** held invalid or unenforceable under **any** particular circumstance, the balance **of** the section **is** intended to apply, and the section **as** a whole **is** intended to apply **in** other circumstances.

It **is** not the purpose **of this** section to induce you to infringe **any** patents or other property right claims or to contest validity **of any** such claims; **this** section has the sole purpose **of** protecting the integrity **of** the free software distribution system which **is** implemented by **public** license practices. Many people have made generous contributions to the wide range **of** software distributed through that system **in** reliance on consistent application **of** that system; it **is** up to the author/donor to decide **if** he or she **is** willing to distribute software through **any** other system and a licensee cannot impose that choice.

This section **is** intended to make thoroughly clear what **is** believed to be a consequence **of** the rest **of this** License.

12. If the distribution and/or use **of** the Library **is** restricted **in** certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under **this** License may add an explicit geographical distribution limitation excluding those countries, so that distribution **is** permitted only **in** or among countries not thus excluded. In such **case**, **this** License incorporates the limitation **as if** written **in** the body **of this** License.

13. The Free Software Foundation may publish revised and/or **new**

versions **of** the Lesser General Public License **from** time to time. Such **new** versions will be similar **in** spirit to the present version, but may differ **in** detail to address **new** problems or concerns.

Each version **is** given a distinguishing version **number**. If the Library specifies a version **number of this** License which applies to it and "**any later version**", you have the option **of** following the terms and conditions either **of** that version or **of any** later version published by the Free Software Foundation. If the Library does not specify a license version **number**, you may choose **any** version ever published by the Free Software Foundation.

14. If you wish to incorporate parts **of** the Library into other free programs whose distribution conditions are incompatible **with** these, write to the author to ask **for** permission. For software which **is** copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions **for this**. Our decision will be guided by the two goals **of** preserving the free status **of** all derivatives **of** our free software and **of** promoting the sharing and reuse **of** software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "**AS IS**" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF

SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a **new** library, and you want it to be **of** the greatest possible use to the **public**, we recommend making it free software that everyone can redistribute and change. You can **do** so by permitting redistribution under these terms (or, alternatively, under the terms **of** the ordinary General Public License).

To apply these terms, attach the following notices to the library. It **is** safest to attach them to the start **of** each source file to most effectively convey the exclusion **of** warranty; and each file should have at least the "**copyright**" line and a pointer to where the full notice **is** found.

<one line to give the library's name and a brief idea of what it does.>
Copyright (C) <year> <name **of** author>

This library **is** free software; you can redistribute it and/or modify it under the terms **of** the GNU Lesser General Public License **as** published by the Free Software Foundation; either version **2.1 of** the License, or (at your option) **any** later version.

This library **is** distributed **in** the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty **of** MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License **for** more details.

You should have received a copy **of** the GNU Lesser General Public License along **with this** library; **if** not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also **get** your employer (**if** you work **as** a programmer) or your school, **if any**, to sign a "**copyright disclaimer**" **for** the library, **if** necessary. Here **is** a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest **in** the library ``Frob'` (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990
Ty Coon, President of Vice

That's all there is to it!

99. Poison (CC0-1.0)

Creative Commons Legal Code

CC0 1.0 Universal

CREATIVE COMMONS CORPORATION IS NOT A LAW FIRM AND DOES NOT PROVIDE LEGAL SERVICES. DISTRIBUTION OF THIS DOCUMENT DOES NOT CREATE AN ATTORNEY-CLIENT RELATIONSHIP. CREATIVE COMMONS PROVIDES THIS INFORMATION ON AN "AS-IS" BASIS. CREATIVE COMMONS MAKES NO WARRANTIES REGARDING THE USE OF THIS DOCUMENT OR THE INFORMATION OR WORKS PROVIDED HEREUNDER, AND DISCLAIMS LIABILITY FOR DAMAGES RESULTING FROM THE USE OF THIS DOCUMENT OR THE INFORMATION OR WORKS PROVIDED HEREUNDER.

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an "owner") of an original work of authorship and/or a database (each, a "Work").

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works ("Commons") that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the "Affirmer"), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights ("Copyright and Related Rights"). Copyright and Related Rights include, but are not limited to, the following:

- i. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
- ii. moral rights retained by the original author(s) and/or performer(s);
- iii. publicity and privacy rights pertaining to a person's image or likeness depicted in a Work;
- iv. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(a), below;
- v. rights protecting the extraction, dissemination, use and reuse of data in a Work;
- vi. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
- vii. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. **Waiver.** To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmer's Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmer's heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmer's express Statement of Purpose.

3. **Public License Fallback.** Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmer's express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmer's Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "License"). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmer's express Statement of Purpose.

4. Limitations and Disclaimers.

- a. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
- b. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.

150. [WiX Toolkit \(MS-RL\)](#)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

1. Definitions

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law.

A "contribution" is the original software, or any additions or changes to the software.

A "contributor" is any person that distributes its contribution under this license.

"Licensed patents" are a contributor's patent claims that read directly on its contribution.

2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

3. Conditions and Limitations

(A) Reciprocal Grants- For any file you distribute that contains code from the software (in source code or binary format), you must provide recipients the source code to that file along with a copy of this license, which license will govern that file. You may license other files that are entirely your own work and do not contain code from the software under any terms you choose.

(B) No Trademark License- This license does not grant you rights to use any contributors' name, logo, or trademarks.

(C) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(D) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(E) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form,

you may only do so under a license that complies with this license.

(F) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.
