Nymi Connect for Windows 1.0.5

The strongest use case for the Nymi Band is creation of signatures in applications like Manufacturing Execution Systems (MES). These are commonly used in large pharma manufacturing plants to govern the manufacturing process. The operator frequently must sign off on steps in the process by creating a signature. This is usually done by prompting the operator to enter their username and password.

Nymi terms these applications as **legacy applications** because they are limited to authentication via username and password.

Nymi needs a simple and reliable way to allow users to use the Nymi Band with legacy applications on Windows. Nymi Connect for Windows is a new component that can be added to the Connected Worker Platform (CWP) solution that enables users to login and perform e-signatures with the Nymi Band with minimal application specific training and prerequisites.

In this release, Nymi Connect for Windows supports logins and e-signatures on POMSNet vR400.7 with the Microsoft Edge browser in IE compatibility mode. Support for additional applications and platforms will be added in future releases.

The NCW 1.0.5 is a major release with Risk Level 0. It can be used for use in production deployments or GxP environments.

Nymi Connect for Windows components

NCW 1.0.5 is a single component release and includes the following component versions:

- Nymi Connect for Windows 1.0.5

Nymi Documentation Package

New documentation has been created for NCW 1.0.5. For latest documentations visit the Nymi Support site.

- To access all NCW core documents, visit: Nymi Connect for Windows Product Release Documentation .

NFC Reader Support

NFC readers were not explicitly tested under the present release. For a list of NFC readers supported in this release, please refer to the **Supported NFC Readers** document.

New In This Release

Nymi Band Support

Nymi Connect for Windows supports usage with both Nymi Band 3 and Nymi Band 4.

Compatibility

Compatibility

NCW 1.0.5 is compatible with CWP 1.18.x and above.
POMSNet vR400.7 on Microsoft Edge browser in IE compatibility mode is supported.

Known Issues and Limitations

Table 2: Known Issues in NCW 1.0.5

Issue Number	Description
NEM-3510	Issue: NCW requires a few seconds to negotiate with NES on startup Workaround: After NCW launches, wait 5 seconds before starting taps
NEM-3528	Issue: System needs to be manually restarted after NCW is installed to work smoothly. Workaround: Admin restarts the system after install.
