Revision History

Table 1: Revision History

Version	Date	Revision History
05	Novemeber 10, 2021	Updated document to include new licensing information for third-party librarie used in the 1.2 release.
04	April 27, 2021	Updated document to include new license information for third-party libraries used in the Connected Worker Platform1.1 release.
03	August 28, 2020	Updated to include new license information for third-party libraries used in the Nymi Enterprise Edition 3.3.2 release.
02	April 15, 2020	Updated to include new license information for third-party libraries used in the Nymi Enterprise Edition 3.3.1 release.
01	December 20, 2020	First release of this document.

Overview

This document contains Third-party License information about applications that are used in Nymi product offerings.

This product comprises subject matter which was obtained under an open source license, including those listed below.

- MIT
- Apache 2.0
- BSD 2-clause
- BSD 3-clause
- ISC
- MPL
- MS-PL
- CCO - 1.0
- WTFPL

For additional information on open-source software utilized in Nymi's product offerings, contact support@nyimi.com.

”

Extended.Wpf.Toolkit (Ms-PL)

Microsoft Public License (Ms-PL)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

1. Definitions

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law. A "contribution" is the original software, or any additions or changes to the software. A "contributor" is any person that distributes its contribution under this license. "Licensed patents" are a contributor's patent claims that read directly on its contribution.

2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

3. Conditions and Limitations

(A) No Trademark License- This license does not grant you rights to use any contributors' name, logo, or trademarks.

(B) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(C) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(D) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(E) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees, or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.

Hardcodet NotifyIcon for WPF (CPOL)

License

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CODE PROJECT OPEN LICENSE ("LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED.

BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HEREIN, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. THE AUTHOR GRANTS YOU THE RIGHTS CONTAINED

HEREIN

IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO ACCEPT AND BE BOUND BY THE TERMS OF THIS LICENSE, YOU CANNOT MAKE ANY USE OF THE WORK.

1. Definitions.

- a. "Articles" means, collectively, all articles written by Author which describes how the Source Code and Executable Files for the Work may be used by a user.
- b. "Author" means the individual or entity that offers the Work under the terms of this License.
- c. "Derivative Work" means a work based upon the Work or upon the Work and other pre-existing works.
- d. "Executable Files" refer to the executables, binary files, configuration and any required data files included in the Work.
- e. "Publisher" means the provider of the website, magazine, CD-ROM, DVD or other medium from or by which the Work is obtained by You.
- f. "Source Code" refers to the collection of source code and configuration files used to create the Executable Files.
- g. "Standard Version" refers to such a Work if it has not been modified, or has been modified in accordance with the consent of the Author, such consent being in the full discretion of the Author.

h. "Work" refers to the collection of files distributed by the Publisher, including the Source Code, Executable Files, binaries, data files, documentation, whitepapers and the Articles.

i. "You" is you, an individual or entity

2. Fair Use/Fair Use Rights. Nothing in this License is intended to reduce, limit, or restrict any rights arising from fair use, fair dealing, first sale or other limitations on the exclusive rights of the copyright owner under copyright law or other applicable laws.

3. License Grant. Subject to the terms and conditions of this License, the Author hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:

a. You may use the standard version of the Source Code or Executable Files in Your own applications.

b. You may apply bug fixes, portability fixes and other modifications obtained from the Public Domain or from the Author. A Work modified in such a way shall still be considered the standard version and will be subject to this License.

c. You may otherwise modify Your copy of this Work (excluding the Articles) in any way to create a Derivative Work, provided that You insert a prominent notice in each changed file stating how, when and where You changed that file.

d. You may distribute the standard version of the Executable Files and Source Code or Derivative Work in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution.

e. The Articles discussing the Work published in any form by the author may not be distributed or republished without the Author's consent. The author retains copyright to any such Articles. You may use the Executable Files and Source Code pursuant to this License but you may not repost or republish or otherwise distribute or make available the Articles, without the prior written consent of the Author.

Any subroutines or modules supplied by You and linked into the Source Code or Executable Files of this Work shall not be considered part of this Work and will not be subject to the terms of this License.

4. Patent License. Subject to the terms and conditions of this License, each Author hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, import, and otherwise transfer the Work.

5. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:

a. You agree not to remove any of the original copyright, patent, trademark, and attribution notices and associated disclaimers that may appear in the Source Code or Executable Files.

b. You agree not to advertise or in any way imply that this Work is a product of Your own.

c. The name of the Author may not be used to endorse or promote products derived from the Work without the prior written consent of the Author.

d. You agree not to sell, lease, or rent any part of the Work. This does not restrict you from including the Work or any part of the Work inside a larger software distribution that itself is being sold. The Work by itself, though, cannot be sold, leased or rented.

e. You may distribute the Executable Files and Source Code only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy of the Executable Files or Source Code You distribute and ensure that anyone receiving such Executable Files and Source Code agrees that the terms of this License apply to such Executable Files and/or Source Code. You may not offer or impose any terms on the Work that alter or restrict the terms of this License or the recipients' exercise of the rights granted hereunder. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties. You may not distribute the Executable Files or Source Code with any technological measures that control access or use of the Work in a manner inconsistent with the terms of this License.

f. You agree not to use the Work for illegal, immoral or improper purposes, or on pages containing illegal, immoral or improper material. The Work is subject to applicable export laws. You agree to comply with all such laws and regulations that may apply to the Work after Your receipt of the Work.

6. Representations, Warranties and Disclaimer. THIS WORK IS PROVIDED "AS IS", "WHERE IS" AND "AS AVAILABLE", WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS OR GUARANTEES. YOU, THE USER, ASSUME ALL RISK IN ITS USE, INCLUDING COPYRIGHT INFRINGEMENT, PATENT INFRINGEMENT, SUITABILITY, ETC. AUTHOR EXPRESSLY DISCLAIMS ALL EXPRESS, IMPLIED OR STATUTORY WARRANTIES OR CONDITIONS, INCLUDING WITHOUT LIMITATION, WARRANTIES OR CONDITIONS OF MERCHANTABILITY, MERCHANTABLE QUALITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY WARRANTY OF TITLE OR NON-INFRINGEMENT, OR THAT THE WORK (OR ANY PORTION THEREOF) IS CORRECT, USEFUL, BUG-FREE OR FREE OF VIRUSES. YOU MUST PASS THIS DISCLAIMER ON WHENEVER YOU DISTRIBUTE THE WORK OR DERIVATIVE WORKS.

7. Indemnity. You agree to defend, indemnify and hold harmless the Author and the Publisher from and against any claims, suits, losses, damages, liabilities, costs, and expenses (including reasonable legal or attorneys' fees) resulting from or relating to any use of the Work by You.

8. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL THE AUTHOR OR THE PUBLISHER BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK OR OTHERWISE, EVEN IF THE AUTHOR OR THE PUBLISHER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

9. Termination.

a. This License and the rights granted hereunder will terminate automatically upon any breach by You of any term of this License. Individuals or entities who have received Derivative Works from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 6, 7, 8, 9, 10 and 11 will survive any termination of this License.

b. If You bring a copyright, trademark, patent or any other infringement claim against any contributor over infringements You claim are made by the Work, your License from such contributor to the Work ends automatically.

c. Subject to the above terms and conditions, this License is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, the Author reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

10. Publisher. The parties hereby confirm that the Publisher shall not, under any circumstances, be responsible for and shall not have any liability in respect of the subject matter of this License. The Publisher makes no warranty whatsoever in connection with the Work and shall not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. The Publisher reserves the right to cease making the Work available to You at any time without notice

11. Miscellaneous

a. This License shall be governed by the laws of the location of the head office of the Author or if the Author is an individual, the laws of location of the principal place of residence of the Author.

b. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this License, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

c. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

d. This License constitutes the entire agreement between the parties with respect to the Work licensed herein. There are no understandings, agreements or representations with respect to the Work not specified herein. The Author shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Author and You.

openSC (LGPL)

The Nymi-provided OpenSC library is based on the open-source OpenSC project (<https://github.com/OpenSC/OpenSC>), with the following changes introduced by Nymi Inc.:

- Support for secure messaging for Personal Identity Verification (PIV) smart cards
- Performance optimization for Nymi Band smart cards

The OpenSC project and the Nymi-introduced modifications are covered under the LGPL license. A copy of the source code for the Nymi-introduced modifications can be obtained by contacting support@nyimi.com.

GNU LESSER GENERAL PUBLIC LICENSE Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.

59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. [This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses **for** most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software **is** free **for** all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--**of** the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether **this** license or the ordinary General Public License **is** the better strategy to use **in any particular case**, based on the explanations below.

When we speak **of** free software, we are referring to freedom **of** use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge **for this** service **if** you wish); that you receive source code or can **get it if** you want it; that you can change the software and use pieces **of it in new** free programs; and that you are informed that you can **do** these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities **for** you **if** you distribute copies **of** the library or **if** you modify it.

For example, **if** you distribute copies **of** the library, whether gratis or **for** a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can **get** the source code. If you link other code **with** the library, you must provide complete **object** files to the recipients, so that they can relink them **with** the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights **with** a two-step method: (1) we copyright the library, and (2) we offer you **this** license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there **is** no warranty **for** the free library. Also, **if** the library **is** modified by someone **else** and passed on, the recipients should know that what they have **is** not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence **of any** free program. We wish to make sure that a company cannot effectively restrict the users **of** a free program by obtaining a restrictive license **from** a patent holder. Therefore, we insist that **any** patent license obtained **for** a version **of** the library must be consistent **with** the full freedom **of** use specified **in this** license.

Most GNU software, including some libraries, **is** covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and **is** quite different **from** the ordinary General Public License. We use **this** license **for** certain libraries **in** order to permit linking those libraries into non-free programs.

When a program **is** linked **with** a library, whether statically or using a shared library, the combination **of** the two **is** legally speaking a combined work, a derivative **of** the original library. The ordinary General Public License therefore permits such linking only **if** the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code **with** the library.

We call **this** license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less **of** an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License **for** many libraries. However, the Lesser license provides advantages **in** certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use **of** a certain library, so that it becomes a de-facto standard. To achieve **this**, non-free programs must be allowed to use the library. A more frequent **case is** that a free library does the same job as widely used non-free libraries. **In this** case, there **is** little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library **in** non-free programs enables a greater **number of** people to use a large body **of** free software. For example, permission to use the GNU C Library **in** non-free programs enables many more people to use the whole GNU operating system, **as well as** its variant, the GNU/Linux operating system.

Although the Lesser General Public License **is** Less protective of the users' freedom, it does ensure that the user of a program that **is** linked with the Library has the freedom and the wherewithal to run that program using a modified version **of** the Library.

The precise terms and conditions **for** copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived **from** the library, whereas the latter must be combined **with** the library **in** order to run. GNU LESSER GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to **any** software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee **is** addressed **as** "you".

A "library" means a collection **of** software functions and/or data prepared so **as** to be conveniently linked **with** application programs (which use some **of** those functions and data) to form executables.

The "Library", below, refers to **any** such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that **is** to say, a work containing the Library or a portion of it, either verbatim or **with** modifications and/or translated straightforwardly into another language. (Hereinafter, translation **is** included without limitation **in** the term "modification".)

"Source code" **for** a work means the preferred form **of** the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus **any** associated **interface** definition files, plus the scripts used to control compilation and installation **of** the library.

Activities other than copying, distribution and modification are not covered by **this** License; they are outside its scope. The act of running a program using the Library **is** not restricted, and output **from** such a program **is** covered only **if** its contents constitute a work based on the Library (independent **of** the use **of** the Library in a tool for writing it). Whether that **is true** depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies **of** the Library's complete source code **as** you receive it, **in any** medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer **of** warranty; keep intact all the notices that refer to **this** License and to the absence **of any** warranty; and distribute a copy of this License along with the Library.

You may charge a fee **for** the physical act **of** transferring a copy, and you may at your option offer warranty protection **in** exchange **for** a fee.

2. You may may modify your copy or copies **of** the Library or **any** portion **of** it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms **of** Section 1 above, provided that you also meet all **of** these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date **of any** change.

c) You must cause the whole **of** the work to be licensed at no charge to all third parties under the terms **of this** License.

d) If a facility in the modified Library refers to a **function** or a table **of** data to be supplied by an application program that uses the facility, other than **as** an argument passed when the facility **is** invoked, then you must make a good faith effort to ensure that, **in** the event an application does not supply

such **function** or table, the facility still operates, and performs whatever part **of** its purpose remains meaningful. (For example, a **function in** a library to compute square roots has a purpose that **is** entirely well-defined independent **of** the application. Therefore, Subsection 2d requires that **any** application-supplied **function** or table used by **this function** must be optional: **if** the application does not supply it, the square root **function** must still compute square roots.)

These requirements apply to the modified work **as** a whole. If identifiable sections of that work are not derived **from** the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, **do** not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part **of** a whole which **is** a work based on the Library, the distribution **of** the whole must be on the terms **of this** License, whose permissions **for** other licensees extend to the entire whole, and thus to each and every part regardless **of** who wrote it.

Thus, it is not the intent **of this** section to claim rights or contest your rights to work written entirely by you; rather, the intent **is** to exercise the right to control the distribution **of** derivative or collective works based on the Library.

In addition, mere aggregation **of** another work not based on the Library **with** the Library (or **with** a work based on the Library) on a volume **of** a storage or distribution medium does not bring the other work under the scope **of this** License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead **of this** License to a given copy of the Library. To **do this**, you must alter all the notices that refer to **this** License, so that they refer to the ordinary GNU General Public License, version 2, instead **of to this** License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead **if** you wish.) Do not make **any** other change **in** these notices.

Once **this** change **is** made **in** a given copy, it **is** irreversible **for** that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made **from** that copy.

This option **is** useful when you wish to copy part **of** the code **of** the Library into a program that **is** not a library.

4. You may copy and distribute the Library (or a portion or derivative **of** it, under Section 2) **in object** code or executable form under the terms **of** Sections 1 and 2 above provided that you accompany it **with** the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used **for** software interchange.

If distribution of **object** code **is** made by offering access to copy **from** a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along **with the object** code.

5. A program that contains no derivative **of any** portion of the Library, but **is** designed to work **with the** Library by being compiled or linked **with** it, **is** called a "work that uses the Library". Such a work, in isolation, **is** not a derivative work of the Library, and therefore falls outside the scope **of this** License.

However, linking a "work that uses the Library" **with** the Library creates an executable that is a derivative **of** the Library (because it contains portions **of** the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms **for** distribution of such executables.

When a "work that uses the Library" uses material **from** a header file that **is part of** the Library, the object code **for** the work may be a derivative work of the Library even though the source code **is not**. Whether **this is true is** especially significant **if** the work can be linked without the Library, or if the work is itself a library. The threshold **for this** to be **true is** not precisely defined by law.

If such an **object** file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use **of the object file is** unrestricted, regardless of whether it **is** legally a derivative work. (Executables containing **this object** code plus portions **of** the Library will still fall under Section 6.)

Otherwise, **if** the work **is** a derivative **of** the Library, you may distribute the object code **for** the work under the terms **of** Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly **with** the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions **of** the Library, and distribute that work under terms **of** your choice, provided that the terms permit modification **of** the work **for** the customer's own use and reverse engineering **for** debugging such modifications.

You must give prominent notice **with** each copy **of** the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy **of this** License. If the work during execution displays copyright notices, you must include the copyright notice **for** the Library among them, **as well as** a reference directing the user to the copy **of this** License. Also, you must do one of these things:

a) Accompany the work **with** the complete corresponding machine-readable source code **for** the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work **is** an executable linked with the Library, **with** the complete machine-readable "work that uses the Library", as object **code** and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It **is** understood that the user who changes the contents **of** definitions files **in** the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking **with** the Library. A suitable mechanism **is** one that (1) uses at run time a copy **of** the library already present on the user's computer system, rather than copying library **functions** into the executable, and (2) will operate properly **with** a modified version of the library, **if** the user installs one, **as long as** the modified version **is** interface-compatible **with** the version that the work was made **with**.

c) Accompany the work **with** a written offer, valid **for** at least three years, to give the same user the materials specified **in** Subsection 6a, above, **for** a charge no more than the cost **of** performing this distribution.

d) **If** distribution **of** the work **is** made by offering access to copy **from** a designated place, offer equivalent access to copy the above specified materials **from** the same place.

e) Verify that the user has already received a copy **of** these materials or that you have already sent **this** user a copy.

For an executable, the required form **of** the "work that uses the Library" must include any data and utility programs needed for reproducing the executable **from** it. However, as a special exception, the

materials to be distributed need not include anything that **is** normally distributed (**in** either source or binary form) **with** the major components (compiler, kernel, and so on) **of** the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that **this** requirement contradicts the license restrictions **of** other proprietary libraries that **do** not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together **in** an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side **in** a single library together **with** other library facilities not covered by **this** License, and distribute such a combined library, provided that the separate distribution **of** the work based on the Library and of the other library facilities **is** otherwise permitted, and provided that you **do** these two things:

a) Accompany the combined library **with** a copy **of** the same work based on the Library, uncombined **with** any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice **with** the combined library of the fact that part **of it is** a work based on the Library, and explaining where to find the accompanying uncombined form **of** the same work.

8. You may not copy, modify, sublicense, link **with**, or distribute the Library except as expressly provided under **this** License. Any attempt otherwise to copy, modify, sublicense, link **with**, or distribute the Library **is void**, and will automatically terminate your rights under **this** License. However, parties who have received copies, or rights, **from** you under **this** License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept **this** License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law **if** you **do** not accept **this** License. Therefore, by modifying or distributing the Library (or **any** work based on the Library), you indicate your acceptance **of this** License to **do** so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or **any** work based on the Library), the recipient automatically receives a license **from** the original licensor to copy, distribute, link **with** or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible **for** enforcing compliance by third parties **with this** License.

11. If, as a consequence **of** a court judgment or allegation **of** patent infringement or **for any** other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of **this** License, they **do** not excuse you from the conditions of **this** License. If you cannot distribute so as to satisfy simultaneously your obligations under **this** License and **any** other pertinent obligations, then **as** a consequence you may not distribute the Library at all. For example, **if** a patent license would not permit royalty-free redistribution **of** the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and **this** License would be to refrain entirely **from** distribution **of** the Library.

If **any** portion of **this** section is held invalid or unenforceable under any particular circumstance, the balance of the section **is** intended to apply, and the section as a whole **is** intended to apply in other circumstances.

It **is** not the purpose of **this** section to induce you to infringe **any** patents or other property right claims or to contest validity of **any** such claims; **this** section has the sole purpose of protecting the integrity of the free software distribution system which **is** implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system **in** reliance on consistent application of that system; it is up to the author/donor to decide **if** he or she **is** willing to distribute software through **any** other system and a licensee cannot impose that choice.

This section **is** intended to make thoroughly clear what **is** believed to be a consequence **of** the rest **of this** License.

12. If the distribution and/or use of the Library **is** restricted **in** certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution **is** permitted only **in** or among countries not thus excluded. In such **case**, **this** License incorporates the limitation **as if** written in the body of **this** License.

13. The Free Software Foundation may publish revised and/or **new** versions of the Lesser General Public License **from** time to time. Such **new** versions will be similar **in** spirit to the present version, but may differ in detail to address **new** problems or concerns.

Each version **is** given a distinguishing version number. If the Library specifies a version number of **this** License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or **of any** later version published by the Free Software Foundation. If the Library does not specify a license version **number**, you may choose **any** version ever published by the Free Software Foundation.

14. If you wish to incorporate parts **of** the Library into other free programs whose distribution conditions are incompatible **with** these, write to the author to ask for permission. **For** software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions **for this**. Our decision will be guided by the two goals **of** preserving the free status **of** all derivatives of our free software and **of** promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR

LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be **of** the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can **do** so by permitting redistribution under these terms (or, alternatively, under the terms **of** the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start **of** each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice **is** found.

<one line to give the library's name and a brief idea of what it does.> Copyright (C) <year> <name **of** author>

This library **is** free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License **as** published by the Free Software Foundation; either version 2.1 **of** the License, or (at your option) **any** later version.

This library **is** distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty **of** MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License **for** more details.

You should have received a copy **of** the GNU Lesser General Public License along **with this** library; **if** not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if **any**, to sign a "copyright disclaimer" **for** the library, if necessary.

Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest **in** the library `Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990 Ty Coon, President of Vice That's all there is to it!

Poison (CC0-1.0)

Creative Commons Legal Code

CC0 1.0 Universal

CREATIVE COMMONS CORPORATION IS NOT A LAW FIRM AND DOES NOT PROVIDE LEGAL SERVICES. DISTRIBUTION OF THIS DOCUMENT DOES NOT CREATE AN ATTORNEY-CLIENT RELATIONSHIP. CREATIVE COMMONS PROVIDES THIS INFORMATION ON AN "AS-IS" BASIS. CREATIVE COMMONS MAKES NO WARRANTIES REGARDING THE USE OF THIS DOCUMENT OR THE INFORMATION OR WORKS PROVIDED HEREUNDER, AND DISCLAIMS LIABILITY FOR DAMAGES RESULTING FROM THE USE OF THIS DOCUMENT OR THE INFORMATION OR WORKS PROVIDED HEREUNDER.

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an "owner") of an original work of authorship and/or a database (each, a "Work").

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works ("Commons") that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the "Affirmer"), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights ("Copyright and Related Rights"). Copyright and Related Rights include, but are not limited to, the following:

- i. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
- ii. moral rights retained by the original author(s) and/or performer(s);
- iii. publicity and privacy rights pertaining to a person's image or likeness depicted in a Work;
- iv. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(a), below;
- v. rights protecting the extraction, dissemination, use and reuse of data in a Work;
- vi. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
- vii. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmer's Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmer's heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmer's express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmer's express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmer's Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "License"). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not

invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmer's express Statement of Purpose.

4. Limitations and Disclaimers.

a. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.

b. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.

c. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any person's Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.

d. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

WiX Toolkit (MS-RL)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

1. Definitions

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law.

A "contribution" is the original software, or any additions or changes to the software.

A "contributor" is any person that distributes its contribution under this license.

"Licensed patents" are a contributor's patent claims that read directly on its contribution.

2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

3. Conditions and Limitations

(A) Reciprocal Grants- For any file you distribute that contains code from the software (in source code or binary format), you must provide recipients the source code to that file along with a copy of this license, which license will govern that file. You may license other files that are entirely your own work and do not contain code from the software under any terms you choose.

(B) No Trademark License- This license does not grant you rights to use any contributors' name, logo, or trademarks.

(C) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(D) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(E) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(F) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.
