

Power House

The versatile and scalable solution for efficient bulk storage and charging in dynamic work environments.

Configure to your needs. Scale with your growth.

Configurable

The modular design of the Power House delivers a charging and storage solution that can be fitted to your organization's unique needs.

Scalable

As your organization expands its use cases and number of connected workers, the Power House conveniently builds with you at your pace.

Design

Modules can be mounted on the wall or set on a flat surface. 10 Nymi Bands per station.
