=====  
Section 1 (Overview): Emgu Corporation use a Dual License business model for its software development library and offers licenses for two distinct purposes - open source

and commercial development 1. If you wish to use the open source license with an EMGU Corporation product, this software is licensed under GPL V3. You agree that you will contribute all your source code to the open source community and you will give them the right to share it with everyone too. The complete GPL v3 terms are included in Section 2. 2. If you want to have a commercial advantage by having a closed source solution, you must purchase an appropriate commercial license from EMGU Corporation. By purchasing a commercial license, you are no longer obligated to publish your source code. You can use Emgu CV with the commercial license terms listed in Section 3.

=====  
Section 2 (Open Source License): GNU GENERAL PUBLIC LICENSE Version 3, 29 June 2007 Copyright (C) 2007 Free Software Foundation, Inc. <<http://fsf.org/>> Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.  
Preamble The GNU General Public License is a free, copyleft license for software and other kinds of works. The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to any other work released this way by its authors. You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things. To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others. For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights. Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it. For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions. Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users. Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that

patents cannot be used to render the program non-free. The precise terms and conditions for copying, distribution and modification follow. TERMS AND CONDITIONS 0. Definitions. "This License" refers to version 3 of the GNU General Public License. "Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks. "The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations. To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work. A "covered work" means either the unmodified Program or a work based on the Program. To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well. To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying. An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

1. Source Code. The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work. A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language. The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it. The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work. The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source. The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions. All rights granted under this License are granted

for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law. You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you. Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law. No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures. When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

4. Conveying Verbatim Copies. You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program. You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions. You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

- The work must carry prominent notices stating that you modified it, and giving a relevant date.
- The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".
- You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.
- If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright

are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate. 6. Conveying Non-Source Forms. You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways: a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange. b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge. c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b. d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements. e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d. A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work. A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product. "Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made. If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and

the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM). The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network. Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

7. Additional Terms. "Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions. When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission. Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

- a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or
- b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or
- c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or
- d) Limiting the use for publicity purposes of names of licensors or authors of the material; or
- e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or
- f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered "further restrictions" within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying. If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms. Additional terms,

permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way. 8. Termination. You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11). However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation. Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice. Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10. 9. Acceptance Not Required for Having Copies. You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so. 10. Automatic Licensing of Downstream Recipients. Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License. An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts. You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it. 11. Patents. A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version". A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License. Each contributor grants you a non-exclusive, worldwide, royalty-free patent license

under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version. In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party. If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid. If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it. A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007. Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law. 12. No Surrender of Others' Freedom. If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program. 13. Use with the GNU Affero General Public License. Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such. 14. Revised Versions

of this License. The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation. If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program. Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

15. Disclaimer of Warranty. THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

17. Interpretation of Sections 15 and 16. If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

**END OF TERMS AND CONDITIONS**

**How to Apply These Terms to Your New Programs**

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms. To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively state the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

```
<one line to give the program's name and a brief idea of what it does.> Copyright (C) <year> <name of author> This program is free software: you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation, either version 3 of the License, or (at your option) any later version. This program is distributed in the hope that it will be useful, but WITHOUT
```

ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details. You should have received a copy of the GNU General Public License along with this program. If not, see <<http://www.gnu.org/licenses/>>. Also add information on how to contact you by electronic and paper mail. If the program does terminal interaction, make it output a short notice like this when it starts in an interactive mode: <program> Copyright (C) <year> <name of author> This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details. The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, your program's commands might be different; for a GUI interface, you would use an "about box". You should also get your employer (if you work as a programmer) or school, if any, to sign a "copyright disclaimer" for the program, if necessary. For more information on this, and how to apply and follow the GNU GPL, see <<http://www.gnu.org/licenses/>>. The GNU General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License. But first, please read <<http://www.gnu.org/philosophy/why-not-lgpl.html>>.

=====  
Section 3 (Commercial license): Version 4 rev.2 THIS DOCUMENT IS A LEGAL AGREEMENT (the "License Agreement") BETWEEN EMGU Corporation ("We," "Us") AND YOU OR THE ORGANIZATION ON WHOSE BEHALF YOU ARE UNDERTAKING THE LICENSE DESCRIBED BELOW ("You") IN RELATION TO THE EMGU CV SOFTWARE (THE "Software"), IN BOTH SOURCE AND OBJECT CODE FORM, AND/OR ALL RELATED MATERIALS. BY DOWNLOADING, INSTALLING, COPYING OR OTHERWISE USING THE SOFTWARE, YOU ACCEPT THE FOLLOWING TERMS AND CONDITIONS. IF YOU DO NOT AGREE WITH ANY OF THE TERMS OR CONDITIONS OF THIS LICENSE AGREEMENT, DO NOT PROCEED WITH THE DOWNLOADING, COPYING, INSTALLATION OR ANY OTHER USE OF THE SOFTWARE OR ANY PORTION THEREOF. THE SOFTWARE IS PROTECTED BY UNITED STATES COPYRIGHT LAWS AND INTERNATIONAL COPYRIGHT LAWS, AS WELL AS OTHER INTELLECTUAL PROPERTY LAWS AND TREATIES. THE SOFTWARE IS LICENSED, NOT SOLD. THIS LICENSE AGREEMENT DESCRIBES YOUR RIGHTS WITH RESPECT TO THE SOFTWARE AND ITS COMPONENTS. We, EMGU Corporation, grant You a non-exclusive, non-transferable license to the Software solely as set forth in sections 1(a), 1(b) or 1(c), as applicable, and subject to the terms and conditions of this License Agreement. 1. OWNERSHIP, LICENSE GRANT This is a license agreement and not an agreement for sale. We reserve ownership of all intellectual property rights inherent in or relating to the Software, which include, but are not limited to, all copyright, patent rights, all rights in relation to registered and unregistered trademarks (including service marks), confidential information (including trade secrets and know-how) and all rights other than those expressly granted by this Agreement. a. Developer License: Subject to the payment of the fee required for a Commercial Developer License and subject to the terms and conditions of this License Agreement, We grant to You a revocable, non-transferable and non-exclusive license (i) for a single developer within Your organization to install and use the Software on any workstations used exclusively by such developer and (ii) for You to install and use the Software in unlimited clients, solely in connection with

distribution of the Software in accordance with sections 3 and 4 below. This license is not sub-licensable except as explicitly set forth herein. b. Workgroup License: Subject to the payment of the fee required for a Commercial Developer License and subject to the terms and conditions of this License Agreement, We grant to You a revocable, non-transferable and non-exclusive license (i) for up to twenty five (25) developers within Your organization to install and use the Software on any workstations used exclusively by such developers and (ii) for You to install and use the Software in unlimited clients, solely in connection with distribution of the Software in accordance with sections 3 and 4 below. This license is not sub-licensable except as explicitly set forth herein. c. Enterprise License: Subject to the payment of the fee required for a Commercial Developer License and subject to the terms and conditions of this License Agreement, We grant to You a revocable, non-transferable and non-exclusive license (i) for up to one hundred (100) developers within Your organization to install and use the Software on any workstations used exclusively by such developers and (ii) for You to install and use the Software in unlimited clients, solely in connection with distribution of the Software in accordance with sections 3 and 4 below. This license is not sub-licensable except as explicitly set forth herein. License a), b) or c) only cover the usage on the source and binary part implemented by Emgu Corporation, and do not cover any non-Emgu implemented library. Open CV 4.5.0 and newer releases are covered by Apache 2.0 license, Open CV 4.4.0 and prior releases are covered by BSD license, Tesseract OCR is covered by Apache 2.0 license. Some algorithms implemented by OpenCV, such as SURF and haar-cascade are patented in the U.S. It is your responsibility to check whether the algorithms you used are patented in your country and contact the patent owner if you want to use them in your commercial software. Open CV also use FFmpeg, which is under its own license. If you use video encoder and decoder in Open CV, it is likely that you are using FFmpeg components. Legal information regarding FFmpeg can be found at <http://www.ffmpeg.org/legal.html>. It is your responsibility to obey the license terms of the above 3rd party libraries.

2. PERMITTED USES, SOURCE CODE, MODIFICATIONS We provide You with source code so that You can create Modifications of the original Software, where Modification means: a) any addition to or deletion from the contents of a file included in the original Software or previous Modifications created by You, or b) any new file that contains any part of the original Software or previous Modifications. While You retain all rights to any original work authored by You as part of the Modifications, We continue to own all copyright and other intellectual property rights in the Software.

3. DISTRIBUTION You may distribute the Software in any applications, frameworks, or elements that you develop using the Software in accordance with this License Agreement, provided that such distribution does not violate the restrictions set forth in section 4 of this agreement. You must not remove, obscure or interfere with any copyright, acknowledgment, attribution, trademark, warning or disclaimer statement affixed to, incorporated in or otherwise applied in connection with the Software. You are required to ensure that the Software is not reused by or with any applications other than those with which You distribute it as permitted herein. For example, if You install the Software on a customer's server, that customer is not permitted to use the Software independently of Your application, and must be informed as such. You will not owe EMGU Corporation any royalties for Your distribution of the Software in accordance with this License Agreement.

4. PROHIBITED USES You may not, without prior written consent of EMGU Corporation, redistribute the Software or Modifications other than by including the Software or a portion thereof within Your own product, which must have substantially different functionality than the Software or Modifications and must

not allow any third party to use the Software or Modifications, or any portions thereof, for software development purposes. You are explicitly not allowed to redistribute the Software or Modifications as part of any product that can be described as a development toolkit or library or is intended for use by software developers and not end-users. You are not allowed to redistribute any part of the Software documentation. You may not: a) use any part of the Software or Modifications or Your knowledge of the Software (or any information that You learn as a result of Your use of the Software) to create a product with the same or substantially the same functionality as the Software; b) transfer, rent, lease, or sublicense the Software or Modifications, or any portions thereof; c) change or remove the copyright notice from any of the files included in the Software or Modifications. UNDER NO CIRCUMSTANCES MAY YOU USE THE SOFTWARE (INCLUDING WITHOUT LIMITATION THE SOURCE CODE THEREOF) AS THE BASIS FOR OR IN CONNECTION WITH A PRODUCT THAT CONTAINS THE SAME, OR SUBSTANTIALLY THE SAME, FUNCTIONALITY AS THE SOFTWARE.

5. TERMINATION This License Agreement and Your right to use the Software and Modifications will terminate immediately without notice if You fail to comply with the terms and conditions of this License Agreement. Upon termination, You agree to immediately cease using and destroy the Software or Modifications, including all accompanying documents. The provisions of sections 4, 5, 6, 7, and 8 will survive any termination of this License Agreement.

6. DISCLAIMER OF WARRANTIES TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EMGU CORPORATION AND ITS SUPPLIERS DISCLAIM ALL WARRANTIES AND CONDITIONS, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, WITH REGARD TO THE SOFTWARE. EMGU CORPORATION DOES NOT GUARANTEE THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE, AND YOU ACKNOWLEDGE THAT IT IS NOT TECHNICALLY PRACTICABLE FOR EMGU CORPORATION TO DO SO.

7. LIMITATION OF LIABILITIES TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL EMGU CORPORATION OR ITS SUPPLIERS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION OR ANY OTHER PECUNIARY LAW) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF EMGU CORPORATION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN ANY CASE, EMGU CORPORATION'S ENTIRE LIABILITY UNDER ANY PROVISION OF THIS LICENSE AGREEMENT SHALL BE LIMITED TO THE GREATER OF THE AMOUNT ACTUALLY PAID BY YOU FOR THE SOFTWARE OR FIVE (\$5.00) DOLLARS (USD).

8. MISCELLANEOUS The license granted herein applies only to the version of the Software downloaded or installed in connection with the terms of this Agreement. Any previous or subsequent license granted to You for use of the Software shall be governed by the terms and conditions of the agreement entered in connection with downloading or installation of that version of the Software. You agree that you will comply with all applicable laws and regulations with respect to the Software, including without limitation all export and re-export control laws and regulations. While redistributing the Software or Modifications thereof, You may choose to offer acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this Agreement. However, in accepting such obligations, You may act only on Your own behalf

and on Your sole responsibility, not on our behalf. You agree to indemnify, defend, and hold Us harmless from and against any liability incurred by, or claims asserted against, Us by reason of Your accepting any such support, warranty, indemnity or additional liability. You agree to be identified as a customer of ours and You agree that We may refer to You by name, trade name and trademark, if applicable, and may briefly describe Your business in our marketing materials and web site. You may not assign this License Agreement without the prior written consent of EMGU CORPORATION. This License Agreement will inure to the benefit of the successors and assigns of EMGU CORPORATION. You acknowledge that this License Agreement is complete and is the exclusive representation of our agreement. No oral or written information given by Us or on our behalf shall create a warranty or collateral contract, or in any way increase the scope of this License Agreement in any way, and You may not rely on any such oral or written information. If any provision in this License Agreement shall be determined to be invalid, such provision shall be deemed omitted; the remainder of this License Agreement shall continue in full force and effect. This License Agreement may be modified only by a written instrument signed by an authorized representative of each party. If the Software or any related documentation is licensed to the U.S. government or any agency thereof, it will be deemed to be "commercial computer software" or "commercial computer software documentation," pursuant to SFAR Section 227.7202 and FAR Section 12.212. Any use of the Software or related documentation by the U.S. government will be governed solely by the terms of this License Agreement.

#### Microsoft Public License (Ms-PL)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

#### 1. Definitions

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law. A "contribution" is the original software, or any additions or changes to the software. A "contributor" is any person that distributes its contribution under this license. "Licensed patents" are a contributor's patent claims that read directly on its contribution.

#### 2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

#### 3. Conditions and Limitations

(A) No Trademark License- This license does not grant you rights to use any contributors' name, logo, or trademarks.

(B) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(C) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(D) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(E) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees, or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CODE PROJECT OPEN LICENSE ("LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED.

BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HEREIN, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. THE AUTHOR GRANTS YOU THE RIGHTS CONTAINED

HEREIN

IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO ACCEPT AND BE BOUND BY THE TERMS OF THIS LICENSE, YOU CANNOT MAKE ANY USE OF THE WORK.

#### 1. Definitions.

- a. "Articles" means, collectively, all articles written by Author which describes how the Source Code and Executable Files for the Work may be used by a user.
- b. "Author" means the individual or entity that offers the Work under the terms of this License.
- c. "Derivative Work" means a work based upon the Work or upon the Work and other pre-existing works.
- d. "Executable Files" refer to the executables, binary files, configuration and any required data files included in the Work.
- e. "Publisher" means the provider of the website, magazine, CD-ROM, DVD or other medium from or by which the Work is obtained by You.
- f. "Source Code" refers to the collection of source code and configuration files used to create the Executable Files.
- g. "Standard Version" refers to such a Work if it has not been modified, or has been modified in accordance with the consent of the Author, such consent being in the full discretion of the Author.
- h. "Work" refers to the collection of files distributed by the Publisher, including the Source Code, Executable Files, binaries, data files, documentation, whitepapers and the Articles.

i. "You" is you, an individual or entity

2. Fair Use/Fair Use Rights. Nothing in this License is intended to reduce, limit, or restrict any rights arising from fair use, fair dealing, first sale or other limitations on the exclusive rights of the copyright owner under copyright law or other applicable laws.

3. License Grant. Subject to the terms and conditions of this License, the Author hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:

a. You may use the standard version of the Source Code or Executable Files in Your own applications.

b. You may apply bug fixes, portability fixes and other modifications obtained from the Public Domain or from the Author. A Work modified in such a way shall still be considered the standard version and will be subject to this License.

c. You may otherwise modify Your copy of this Work (excluding the Articles) in any way to create a Derivative Work, provided that You insert a prominent notice in each changed file stating how, when and where You changed that file.

d. You may distribute the standard version of the Executable Files and Source Code or Derivative Work in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution.

e. The Articles discussing the Work published in any form by the author may not be distributed or republished without the Author's consent. The author retains copyright to any such Articles. You may use the Executable Files and Source Code pursuant to this License but you may not repost or republish or otherwise distribute or make available the Articles, without the prior written consent of the Author.

Any subroutines or modules supplied by You and linked into the Source Code or Executable Files of this Work shall not be considered part of this Work and will not be subject to the terms of this License.

4. Patent License. Subject to the terms and conditions of this License, each Author hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, import, and otherwise transfer the Work.

5. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:

a. You agree not to remove any of the original copyright, patent, trademark, and attribution notices and associated disclaimers that may appear in the Source Code or Executable Files.

b. You agree not to advertise or in any way imply that this Work is a product of Your own.

c. The name of the Author may not be used to endorse or promote products derived from the Work without the prior written consent of the Author.

d. You agree not to sell, lease, or rent any part of the Work. This does not restrict you from including the Work or any part of the Work inside a larger software distribution that itself is being sold. The Work by itself, though, cannot be sold, leased or rented.

e. You may distribute the Executable Files and Source Code only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy of the Executable Files or Source Code You distribute and ensure that anyone receiving such Executable Files and Source Code agrees that the terms of this License apply to such Executable Files and/or Source Code. You may not offer or impose any terms on the Work that alter or restrict the terms of this License or the recipients' exercise of the rights granted hereunder. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties. You may not distribute the Executable Files or Source Code with any technological measures that control access or use of the Work in a manner inconsistent with the terms of this License.

f. You agree not to use the Work for illegal, immoral or improper purposes, or on pages containing illegal, immoral or improper material. The Work is subject to applicable export laws. You agree to comply with all such laws and regulations that may apply to the Work after Your receipt of the Work.

6. Representations, Warranties and Disclaimer. THIS WORK IS PROVIDED "AS IS", "WHERE IS" AND "AS AVAILABLE", WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS OR GUARANTEES. YOU, THE USER, ASSUME ALL RISK IN ITS USE, INCLUDING COPYRIGHT INFRINGEMENT, PATENT INFRINGEMENT, SUITABILITY, ETC. AUTHOR EXPRESSLY DISCLAIMS ALL EXPRESS, IMPLIED OR STATUTORY WARRANTIES OR CONDITIONS, INCLUDING WITHOUT LIMITATION, WARRANTIES OR CONDITIONS OF MERCHANTABILITY, MERCHANTABLE QUALITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY WARRANTY OF TITLE OR NON-INFRINGEMENT, OR THAT THE WORK (OR ANY PORTION THEREOF) IS CORRECT, USEFUL, BUG-FREE OR FREE OF VIRUSES. YOU MUST PASS THIS DISCLAIMER ON WHENEVER YOU DISTRIBUTE THE WORK OR DERIVATIVE WORKS.

7. Indemnity. You agree to defend, indemnify and hold harmless the Author and the Publisher from and against any claims, suits, losses, damages, liabilities, costs, and expenses (including reasonable legal or attorneys' fees) resulting from or relating to any use of the Work by You.

8. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL THE AUTHOR OR THE PUBLISHER BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK OR OTHERWISE, EVEN IF THE AUTHOR OR THE PUBLISHER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

9. Termination.

a. This License and the rights granted hereunder will terminate automatically upon any breach by You of any term of this License. Individuals or entities who have received Derivative Works from You under this License, however, will not have their licenses terminated provided such

individuals or entities remain in full compliance with those licenses. Sections 1, 2, 6, 7, 8, 9, 10 and 11 will survive any termination of this License.

b. If You bring a copyright, trademark, patent or any other infringement claim against any contributor over infringements You claim are made by the Work, your License from such contributor to the Work ends automatically.

c. Subject to the above terms and conditions, this License is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, the Author reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

10. Publisher. The parties hereby confirm that the Publisher shall not, under any circumstances, be responsible for and shall not have any liability in respect of the subject matter of this License. The Publisher makes no warranty whatsoever in connection with the Work and shall not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. The Publisher reserves the right to cease making the Work available to You at any time without notice

#### 11. Miscellaneous

a. This License shall be governed by the laws of the location of the head office of the Author or if the Author is an individual, the laws of location of the principal place of residence of the Author.

b. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this License, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

c. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

d. This License constitutes the entire agreement between the parties with respect to the Work licensed herein. There are no understandings, agreements or representations with respect to the Work not specified herein. The Author shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Author and You.

GNU LESSER GENERAL PUBLIC LICENSE Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.

59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. [This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses **for** most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software **is free for** all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--**of** the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether **this** license or the ordinary General Public License **is** the better strategy to use **in any** particular **case**, based on the explanations below.

When we speak **of** free software, we are referring to freedom **of** use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge **for this** service **if** you wish); that you receive source code or can **get** it **if** you want it; that you can change the software and use pieces **of** it **in new** free programs; and that you are informed that you can **do** these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities **for** you **if** you distribute copies **of** the library or **if** you modify it.

For example, **if** you distribute copies **of** the library, whether gratis or **for** a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can **get** the source code. If you link other code **with** the library, you must provide complete **object** files to the recipients, so that they can relink them **with** the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights **with** a two-step method: (1) we copyright the library, and (2) we offer you **this** license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there **is** no warranty **for** the free library. Also, **if** the library **is** modified by someone **else** and passed on, the recipients should know that what they have **is** not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence **of any** free program. We wish to make sure that a company cannot effectively restrict the users **of** a free program by obtaining a restrictive license **from** a patent holder. Therefore, we insist that **any** patent license obtained **for** a version **of** the library must be consistent **with** the full freedom **of** use specified **in this** license.

Most GNU software, including some libraries, **is** covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and **is** quite different **from** the ordinary General Public License. We use **this** license **for** certain libraries **in** order to permit linking those libraries into non-free programs.

When a program **is** linked **with** a library, whether statically or using a shared library, the combination **of** the two **is** legally speaking a combined work, a derivative **of** the original library. The ordinary General Public License therefore permits such linking only **if** the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code **with** the library.

We call **this** license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less **of** an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License **for** many libraries. However, the Lesser license provides advantages **in** certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use **of** a certain library, so that it becomes a de-facto standard. To achieve **this**, non-

free programs must be allowed to use the library. A more frequent **case is** that a free library does the same job as widely used non-free libraries. **In this** case, there **is** little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library **in** non-free programs enables a greater **number of** people to use a large body **of** free software. For example, permission to use the GNU C Library **in** non-free programs enables many more people to use the whole GNU operating system, **as well as** its variant, the GNU/Linux operating system.

Although the Lesser General Public License **is** less protective of the users' freedom, it does ensure that the user of a program that **is** linked with the Library has the freedom and the wherewithal to run that program using a modified version **of** the Library.

The precise terms and conditions **for** copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived **from** the library, whereas the latter must be combined **with** the library **in** order to run. GNU LESSER GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to **any** software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee **is** addressed **as** "you".

A "library" means a collection **of** software functions and/or data prepared so **as** to be conveniently linked **with** application programs (which use some **of** those functions and data) to form executables.

The "Library", below, refers to **any** such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that **is** to say, a work containing the Library or a portion of it, either verbatim or **with** modifications and/or translated straightforwardly into another language. (Hereinafter, translation **is** included without limitation **in** the term "modification".)

"Source code" **for** a work means the preferred form **of** the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus **any** associated **interface** definition files, plus the scripts used to control compilation and installation **of** the library.

Activities other than copying, distribution and modification are not covered by **this** License; they are outside its scope. The act of running a program using the Library **is** not restricted, and output **from** such a program **is** covered only **if** its contents constitute a work based on the Library (independent **of** the use **of** the Library in a tool for writing it). Whether that **is true** depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies **of** the Library's complete source code **as** you receive it, **in any** medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer **of** warranty; keep intact all the notices that refer to **this** License and to the absence **of any** warranty; and distribute a copy of this License along with the Library.

You may charge a fee **for** the physical act **of** transferring a copy, and you may at your option offer warranty protection **in** exchange **for** a fee.

2. You may may modify your copy or copies **of** the Library or **any** portion **of** it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms **of** Section 1 above, provided that you also meet all **of** these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date **of any** change.
- c) You must cause the whole **of** the work to be licensed at no charge to all third parties under the terms **of this** License.
- d) If a facility in the modified Library refers to a **function** or a table **of** data to be supplied by an application program that uses the facility, other than **as** an argument passed when the facility **is** invoked, then you must make a good faith effort to ensure that, **in** the event an application does not supply such **function** or table, the facility still operates, and performs whatever part **of** its purpose remains meaningful. (For example, a **function in** a library to compute square roots has a purpose that **is** entirely well-defined independent **of** the application. Therefore, Subsection 2d requires that **any** application-supplied **function** or table used by **this function** must be optional: **if** the application does not supply it, the square root **function** must still compute square roots.)

These requirements apply to the modified work **as** a whole. If identifiable sections of that work are not derived **from** the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, **do** not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part **of** a whole which **is** a work based on the Library, the distribution **of** the whole must be on the terms **of this** License, whose permissions **for** other licensees extend to the entire whole, and thus to each and every part regardless **of** who wrote it.

Thus, it is not the intent **of this** section to claim rights or contest your rights to work written entirely by you; rather, the intent **is** to exercise the right to control the distribution **of** derivative or collective works based on the Library.

In addition, mere aggregation **of** another work not based on the Library **with** the Library (or **with** a work based on the Library) on a volume **of** a storage or distribution medium does not bring the other work under the scope **of this** License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead **of this** License to a given copy of the Library. To **do this**, you must alter all the notices that refer to **this** License, so that they refer to the ordinary GNU General Public License, version 2, instead **of** to **this** License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead **if** you wish.) Do not make **any** other change **in** these notices.

Once **this** change **is** made **in** a given copy, it **is** irreversible **for** that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made **from** that copy.

This option **is** useful when you wish to copy part **of** the code **of** the Library into a program that **is** not a library.

4. You may copy and distribute the Library (or a portion or derivative **of** it, under Section 2) **in object** code or executable form under the terms **of** Sections 1 and 2 above provided that you accompany it **with** the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used **for** software interchange.

If distribution of **object** code **is** made by offering access to copy **from** a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along **with** the **object** code.

5. A program that contains no derivative **of any** portion of the Library, but **is** designed to work **with** the Library by being compiled or linked **with** it, **is** called a "work that uses the Library". Such a work, in isolation, **is** not a derivative work of the Library, and therefore falls outside the scope **of this** License.

However, linking a "work that uses the Library" **with** the Library creates an executable that is a derivative **of** the Library (because it contains portions **of** the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms **for** distribution of such executables.

When a "work that uses the Library" uses material **from** a header file that **is** part **of** the Library, the object code **for** the work may be a derivative work of the Library even though the source code **is** not. Whether **this is true is** especially significant **if** the work can be linked without the Library, or if the work is itself a library. The threshold **for this** to be **true is** not precisely defined by law.

If such an **object** file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use **of** the **object** file **is** unrestricted, regardless of whether it **is** legally a derivative work. (Executables containing **this object** code plus portions **of** the Library will still fall under Section 6.)

Otherwise, **if** the work **is** a derivative **of** the Library, you may distribute the object code **for** the work under the terms **of** Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly **with** the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions **of** the Library, and distribute that work under terms **of** your choice, provided that the terms permit modification **of** the work **for** the customer's own use and reverse engineering **for** debugging such modifications.

You must give prominent notice **with** each copy **of** the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy **of this** License. If the work during execution displays copyright notices, you must include the copyright notice **for** the Library among them, **as well as** a reference directing the user to the copy **of this** License. Also, you must do one of these things:

a) Accompany the work **with** the complete corresponding machine-readable source code **for** the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work **is** an executable linked with the Library, **with** the complete machine-readable "work that uses the Library", as object **code** and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It **is** understood that the user who changes the contents **of** definitions files **in** the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking **with** the Library. A suitable mechanism **is** one that (1) uses at run time a copy **of** the library already present on the user's computer system, rather than copying library **functions** into the executable, and (2) will operate properly **with** a modified version of the library, **if** the user installs one, **as long as** the modified version **is** interface-compatible **with** the version that the work was made **with**.

c) Accompany the work **with** a written offer, valid **for** at least three years, to give the same user the materials specified **in** Subsection 6a, above, **for** a charge no more than the cost **of** performing this distribution.

d) **If** distribution **of** the work **is** made by offering access to copy **from** a designated place, offer equivalent access to copy the above specified materials **from** the same place.

e) Verify that the user has already received a copy **of** these materials or that you have already sent **this** user a copy.

**For** an executable, the required form **of** the "work that uses the Library" must include any data and utility programs needed for reproducing the executable **from** it. However, as a special exception, the materials to be distributed need not include anything that **is** normally distributed (**in** either source or binary form) **with** the major components (compiler, kernel, and so on) **of** the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that **this** requirement contradicts the license restrictions **of** other proprietary libraries that **do** not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together **in** an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side **in** a single library together **with** other library facilities not covered by **this** License, and distribute such a combined library, provided that the separate distribution **of** the work based on the Library and of the other library facilities **is** otherwise permitted, and provided that you **do** these two things:

a) Accompany the combined library **with** a copy **of** the same work based on the Library, uncombined **with** any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice **with** the combined library of the fact that part **of** it **is** a work based on the Library, and explaining where to find the accompanying uncombined form **of** the same work.

8. You may not copy, modify, sublicense, link **with**, or distribute the Library except as expressly provided under **this** License. Any attempt otherwise to copy, modify, sublicense, link

**with**, or distribute the Library **is void**, and will automatically terminate your rights under **this** License. However, parties who have received copies, or rights, **from** you under **this** License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept **this** License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law **if** you **do** not accept **this** License. Therefore, by modifying or distributing the Library (or **any** work based on the Library), you indicate your acceptance **of this** License to **do** so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or **any** work based on the Library), the recipient automatically receives a license **from** the original licensor to copy, distribute, link **with** or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible **for** enforcing compliance by third parties **with this** License.

11. If, as a consequence **of** a court judgment or allegation **of** patent infringement or **for any** other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of **this** License, they **do** not excuse you from the conditions of **this** License. If you cannot distribute so as to satisfy simultaneously your obligations under **this** License and **any** other pertinent obligations, then **as** a consequence you may not distribute the Library at all. For example, **if** a patent license would not permit royalty-free redistribution **of** the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and **this** License would be to refrain entirely **from** distribution **of** the Library.

**If any** portion of **this** section is held invalid or unenforceable under any particular circumstance, the balance of the section **is** intended to apply, and the section as a whole **is** intended to apply in other circumstances.

It **is** not the purpose of **this** section to induce you to infringe **any** patents or other property right claims or to contest validity of **any** such claims; **this** section has the sole purpose of protecting the integrity of the free software distribution system which **is** implemented by public license practices. Many people have made generous contributions to the wide range **of** software distributed through that system **in** reliance on consistent application of that system; it is up to the author/donor to decide **if** he or she **is** willing to distribute software through **any** other system and a licensee cannot impose that choice.

This section **is** intended to make thoroughly clear what **is** believed to be a consequence **of** the rest **of this** License.

12. If the distribution and/or use of the Library **is** restricted **in** certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution **is** permitted only **in** or among countries not thus excluded. In such **case**, **this** License incorporates the limitation **as if** written in the body of **this** License.

13. The Free Software Foundation may publish revised and/or **new** versions of the Lesser General Public License **from** time to time. Such **new** versions will be similar **in** spirit to the present version, but may differ in detail to address **new** problems or concerns.

Each version **is** given a distinguishing version number. If the Library specifies a version number of **this** License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or **of any** later version published by the Free Software Foundation. If the Library does not specify a license version **number**, you may choose **any** version ever published by the Free Software Foundation.

14. If you wish to incorporate parts **of** the Library into other free programs whose distribution conditions are incompatible **with** these, write to the author to ask for permission. **For** software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions **for this**. Our decision will be guided by the two goals **of** preserving the free status **of** all derivatives of our free software and **of** promoting the sharing and reuse of software generally.

#### NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### END OF TERMS AND CONDITIONS

#### How to Apply These Terms to Your New Libraries

**If** you develop a new library, and you want it to be **of** the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can **do** so by permitting redistribution under these terms (or, alternatively, under the terms **of** the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start **of** each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice **is** found.

<one line to give the library's name and a brief idea of what it does.> Copyright (C) <year>  
<name **of** author>

This library **is** free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License **as** published by the Free Software Foundation; either version 2.1 **of** the License, or (at your option) **any** later version.

This library **is** distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty **of** MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License **for** more details.

You should have received a copy **of** the GNU Lesser General Public License along **with this** library; **if** not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, **if any**, to sign a "copyright disclaimer" **for** the library, if necessary.

Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest **in** the library `Frob' (a library for tweaking knobs) written by James Random Hacker.

CREATIVE COMMONS PROVIDES THIS INFORMATION ON AN "AS-IS" BASIS. CREATIVE COMMONS MAKES NO WARRANTIES REGARDING THE USE OF THIS DOCUMENT OR THE INFORMATION OR WORKS PROVIDED HEREUNDER, AND DISCLAIMS LIABILITY FOR DAMAGES RESULTING FROM THE USE OF THIS DOCUMENT OR THE INFORMATION OR WORKS PROVIDED HEREUNDER.

## Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an "owner") of an original work of authorship and/or a database (each, a "Work").

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works ("Commons") that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the "Affirmer"), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights ("Copyright and Related Rights"). Copyright and Related Rights include, but are not limited to, the following:

- i. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
- ii. moral rights retained by the original author(s) and/or performer(s);
- iii. publicity and privacy rights pertaining to a person's image or likeness depicted in a Work;
- iv. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(a), below;
- v. rights protecting the extraction, dissemination, use and reuse of data in a Work;
- vi. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
- vii. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmer's Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or

future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmer's heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmer's express Statement of Purpose.

3. **Public License Fallback.** Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmer's express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmer's Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "License"). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmer's express Statement of Purpose.

#### 4. Limitations and Disclaimers.

a. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.

b. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.

c. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any person's Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.

d. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

**WiX Toolkit (MS-RL)**

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

**1. Definitions**

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law.

A "contribution" is the original software, or any additions or changes to the software.

A "contributor" is any person that distributes its contribution under this license.

"Licensed patents" are a contributor's patent claims that read directly on its contribution.

## 2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

## 3. Conditions and Limitations

(A) Reciprocal Grants- For any file you distribute that contains code from the software (in source code or binary format), you must provide recipients the source code to that file along with a copy of this license, which license will govern that file. You may license other files that are entirely your own work and do not contain code from the software under any terms you choose.

(B) No Trademark License- This license does not grant you rights to use any contributors' name, logo, or trademarks.

(C) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(D) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(E) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(F) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.
